We recommend that a sidewalk be built on Washington Street from St. Clair's garage to the easterly boundary of the Neil Twitchell property and that the sum of \$1,000 be raised for same. Work to be contracted to a local contractor.

We recommend that Washington Street be properly built from Glen Road to the Island, so called, and that same be paid for from the emergency fund allotted the Town by the State.

We recommend that the street leading off Alpine Street and known as Corbin Avenue be built from the emergency fund allotted by the State.

We recommend the amount of \$100 be appropriated and raised to purchase circulars advertising the Town of Gorham.

We recommend that the amount of \$1,700 be appropriated and raised for Nurse Association, to be used as follows, \$1,200 for the Association and \$500 for new automobile.

It appears there are some repairs that should be made in the Library and we therefore recommend the amount of \$1,550 be appropriated and raised and of this amount \$250 be used for repairs.

We recommend that \$100 be appropriated and raised to make suitable drainage at the home of Levi Paulson at Cascade.

We recommend that the Town vote to have the Road Agent purchase a blade to be used on local trucks for plowing winter roads and same be paid for from Highway Maintenance money.

There has been an application made for the purchase of a new fire truck, or that extensive repairs be made on the present truck. We suggest an article be placed in the Town Warrant to cover this, and that if the voters decide to purchase a new truck, that the amount appropriated should not exceed \$4,000.

We recommend that the catch basin located at the corner of

First Avenue and Gordon Street at Cascade be raised to proper height to insure safe traffic.

We recommend the amount of \$3,000 be appropriated for Municipal Water Bonds, to be taken from funds on hand.

Following is a list of our Budget for the ensuing year and if no new projects appear other than recommended below, our tax rate should be about \$25.50 per \$1,000.

The work in the schools consisted of the usual examinations, the vision test, weighing and measuring, and pediculosis, as well as emergency calls for first aid. Aside from these routine examinations, health talks were given in the elementary grades, the nurse having spent in the schools the time not occupied in nursing and welfare work.

Although we found many children with defective vision, they could not be supplied with glasses for the reason that the parents were financially unable to furnish them and last year the state could not assist in the work as it did the year previous. However, the state is supplying milk for undernourished children whose physical condition has become very much improved, and since January 1st, has been distributing, through the nurse, cod liver oil to malnourished children.

Retardation in school work is, as we all know, caused to a

great extent by physical defects. For this reason, medical inspection is of little value unless corrective treatment follows. If this is not done, the examination amounts to little. The nurse has long hoped that a fund available for this follow-up work might be established in the community.

Many needy families reported their condition to the nurse, who through the Red Cross Distribution Center, the County Welfare, as well as the charity and kindness of several local people, was able to distribute food, clothing and medicine to these people suffering because of unemployment.

The nurse thanks those whose support and good will have encouraged and assisted her in carrying on her work in the community.

Respectfully submitted,

ANNE GORMAN,

Public Health Nurse.
